200 Years of Indiana Art: A Cultural Legacy is a fine art exhibition featuring works by Indiana artists from 1816 – 2016. The exhibition will include objects from the ISMHS permanent collection, statewide institutions, private collectors and artists. In addition, we'll borrow several works from private foundations and institutions from outside the state. Early works by important Indiana artists will provide a historical perspective. Additional works, including Modern and contemporary pieces will illustrate the development of the visual arts in Indiana, showcasing the immense talent and diversity associated with the State.
